Protocol on the Prevention and Response to  
sexual harassment and gender-based harassment

# Activity Plans 2025-2026

## Main objectives

- Strengthen our position as a scientific-technical association in the sector.
- Improve the visibility of the Association.
- Increase/ maintain the number of associates and partner companies.

## News

- New format of AEFI Symposium 2026.

# What is appreciated from EIPG...

- Annual EIPG General Assembly: networking between countries.
- Expert contribution of European legislative consultations and other relevant documents.
- Regular contact with European Commission and other regulatory Healthcare Administration agents.
- Focused on educational and industrial pharmacists issues.

# What is expected from EIPG...

- Expert groups for discussion and write position papers for new /innovative subjects of interest of pharmacists working in Industry.
- Annual or biannually position paper about the current situation of the pharmacists and their role in the Industry.
- Review and update CPD (Continuing Professional Development for Qualified Persons/Regulatory Affairs).
- EIPG's membership fee is too high and there are important differences among all the member states' contributions. AEFI's associates should see an added value in the relationship with the Group.
- Follow-up on consolidated responses to documents issued by EMA and other European institutions for public consultation.
