Smarter medicine – better care

International Conference on Pharmaceutical Sciences

24–26 September 2026
Siófok – Hungary

Our conference theme **“Smarter Medicine – Better Care”** echoes that pharmaceutical innovation must translate into improved patient outcomes.

Our conference motto

**“From Innovation to Therapy: Science, Quality, and Patient Care
in the Pharmaceutical Sciences”**

highlights that advances in research, technology and data science
must be integrated into clinical practice.

The scientific program covers the full spectrum of modern pharmaceutical sciences:
drug discovery, pharmaceutical technology, clinical pharmacy, real-world data,
digital health and AI-driven research.
